Hongrong, March 14th, 1895. AT the meeting of the Legislative Council on Tuesday a statement of the assets and count of the Taipingshan resumption to liabilities of the colony together with a state-| meet out of balances, as well as the expense ment of the revenue and expenditure for of the re-erection of Gap Rock Lighthouse, 1894 were laid on the table. The statement the Government is to be congentulated on nothing to boast of. The colony is now affording the public the information therein contained. Formerly it was the custom to attach a so-called statement of assets and liabilities to the annual statement of revenue and expenditure, but the figures were presented | necessary, outside those already provided in a quite incomprehensible form, and for a for, will for some years to come have to be number of years past they have been omitted. defrayed out of revenue. The statement now presented is a businesslike balance sheet and reflects credit on the officer who has prepared it. It is signed by the Hon. N G. MITCHELL-INNES, Colonial Treasurer, but whether that gentleman up or not we are unable to say. Its publication is no doubt to be accounted for by the criticism evoked by the Governor's statement a few months ago that the colony possessed his recall a balance of \$600,000 irrespective of all —monies derived from loans. That statement was at the time received with meredulity | March :-

SERIOUS AFFRAY ON A STEAMER AT KOBE.

CARGO ATTEMPTED TO BE TAKEN OUT OF A TESSEL BY FORCE. Yesterday (15th March) a somewhat serious affray took place between the officers of the German steamer Rheingold and coolies who had come on board to remove the cargo, which might have had serious consequences. The complete story will be found interesting, especially to

Some weeks ago a well-known Japanese shipping firm in Hyogo, of good standing, chartered the Rheingold from a foreign firm in Kobe and then sub-chartered her to others for a voyage up north to the Hokkaido, &c. The vessel was duly loaded here, and left for the Hokkaide, proceeding first to Fushiki for the purpose of taking in cargo there. At Fushiki the captain discovered that the vessel had sustained some injury; which was of a ch a nature that it was necessary to wire home to his owners for instructions. He did this and received a cablegram to repair and proceed. Repairs were at once commenced, and as soon as the vessel was made tight, notice was charterers found they had lost the cargo which would appear that they determined to attempt evading their responsibilities. At any rate. they absolutely refused to give any instruction the to the captain, and, not b ing able to proceed on Sunday, Srd March, with her cargo still
